CSV Documentation for Listings

Each row in the CSV file represents a listing. The columns in the CSV file should be as follows:

1. **Type:** This should be either "verkoop" (sale) or "verhuur" (rental), depending on the type of listing.

2. **Title:** The title of the listing.

3. **Description:** A description of the listing.

4. **Price:** The price of the listing. This should be a number.

5. **Bidding_Allowed:** This field is only for "verkoop" type listings. It should be "true" if bidding is allowed, "false" otherwise. Leave this field empty for "verhuur" type listings.

6. **Rental_Days:** This field is only for "verhuur" type listings. It should contain the number of rental days. Leave this field empty for "verkoop" type listings.

Example:

	A	B	C	D	E	F
1	Type	Title	Description	Price	Bidding_Allowed	Rental_Days
2	verkoop	Fitness Equipment	A complete set of fitness equipment for home use.	50.5	true	
3	verhuur	Bike Rental	Rent a bike for a day or more.	15		7

Here's an example of the content of a CSV file:

Type,Title,Description,Price,Bidding_Allowed,Rental_Days

verkoop,Fitness Equipment,A complete set of fitness equipment for home use.,50.5,true,

verhuur,Bike Rental,Rent a bike for a day or more.,15,,7
